I am Avnish singh. As an Ethical Hacker, I specialize in ethical hacking methodologies with extensive knowledge in penetration testing, network security, and cloud security. My expertise includes programming, operating systems like Linux and Windows, and various cybersecurity tools such as Wireshark, Metasploit, and NMap. My goal is to identify and address potential vulnerabilities to ensure a secure digital environment.

## EDUCATION

### Bachelor of Computer Science

J.S COLLAGE OF EDUCATION • Mainpuri

06/2022 - 07/2025

## PROJECTS

### KeylistCraft

KeylistCraft, a Python tool, swiftly creates password lists from user input. It offers viewing in the terminal or saving to a file. Ideal for security testing, it's user-friendly and open-source.

## CERTIFICATIONS

### Ethical Hacking Essentials (EHE)

EC-Council

### Network Defence Essentials (EHE)

EC-Council

### Computer Applications, Business Accounting and Multilingual Desktop Publishing (CABA-MDTP)

NIELIT & NCPUL

### Advance Python
